PROFILE CARD DESIGN

SS BOOTSTRAP

We'll be applying what we learned to make a professional Travel Blog!

How do these travel blogs organize their pages?

What features does each website have?

How do they differ from one another?

Where do you see evidence of Bootstrap components?

Make Your Own Travel Blog!

You can choose which type of travel blog it is:

- a. A personal travel diary, showing pictures of the places you've been - OR -
- b. A list of places you want to go to with things you want to do there - OR -
- c. A travel agency that is promoting travel destinations

Questions to Consider while Planning:

1. What destinations will you feature? Name at least 2 - 4
2. What different pages do you need? (These are the names of the pages on your Navbar)
3. Which page has the carousel? What will be featured on the carousel?
4. Which page has the cards? What will be featured on the cards?
5. What layouts will you use? Sketch the layout for each page and label each element, so that you have an idea of where the text and images go.
