# 1 Image Carousel:

2  
3  
4 An image carousel is a container of  
5 images that act as a slideshow within  
6 your web page.  
7

8  
9 Why include an image carousel in your  
10 web page? Most people only look at the  
11 pictures! Click Here for some  
12 interesting marketing statistics.

## With controls

Adding in the previous and next controls. We recommend using `<button>` elements, but you can also use `<a>` elements with `role="button"`.

HTML

Adding a Carousel to you web page  
is as easy as 1,2,3.

Step 2: Paste the tags.

1. Open your Replit file.
2. Place your cursor directly below the first <body> Tab.
3. Paste CTRL-V or Right Click/Paste

Adding a Carousel to you web page is  
as easy as 1,2,3.

Step 3: Modify the the tags.

1. Look for the img tag

```

```

2. Insert the link (right click, copy link address) to your photo inside the first set of " " (src = " ").

3. Type a description of the photo inside the second set of " " (alt = " ")

## Step 3: add URL

### Tab Before:

```

```

### Tab After:

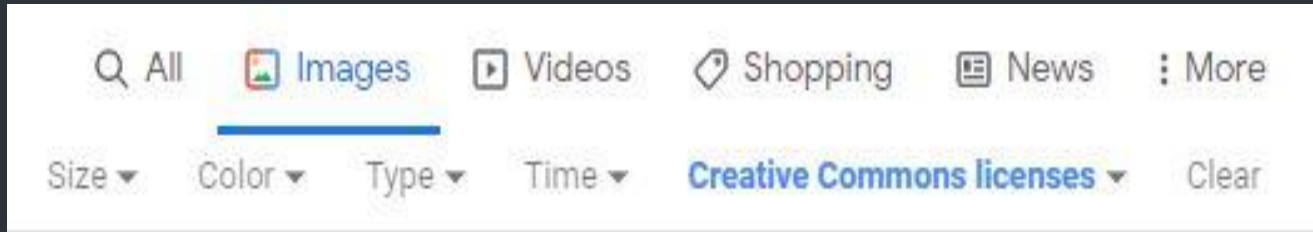

```

```

**Note:** The link will be very long.

1 CAUTION: DO NOT copy just any  
2 photo from the internet!! Make sure  
3 that it has a creative commons license.  
4

5 A Creative Commons (CC) license is one of several  
6 public copyright licenses that enable the free  
7 distribution of an otherwise copyrighted "work".

Note: Instead of the URL; you can also upload the file from your computer.

To use a file:

1. Find photo on internet
2. Right click and select Save Image As
3. Upload the file into Replit

Tab After:

```

```

1 The tabs we copied from Bootstrap allow  
2 for three photos. If you want more  
3 photos in your carousel, copy the  
4 following tags.
